A Clean Step

Stepping into the New Year with a light heart and a pair of lightweight shoes. Speaking of lightweight shoes, **Native** is the best choice in terms of durability, sustainability, comfort, and not to forget: style.

PP is interested with their 2 eco-friendly collections of **Bloom** and **Sugarlite**. Rise by Bloom collection is made of repurposed algae biomass to replace plastic polymers. What a cool innovation! It does not stop there, though. Every pair manufactured restores 80 liters of filtered water to ecosystem plus help clean the air we breathe. Still not sure how eco-conscious Native

Shoes' Bloom collection? Let PP enlighten you. For example, crowd's favorite The Jefferson only has carbon emission of 3.85 kgCO₂e as compared to its alternatives of 20 kgCO₂e.

PP knows we all love choices. Another option is the Sugarlite collection. Staying true to its namesake, the shoes are made from sugarcane derived material. So not only they're sweet-looking, they're also sweet for the earth. Compared to traditional EVA, this material reduces greenhouse gas impact by 22%. All the designs and production process in this collection pay close attention

to water consumption, human health, and ecosystem quality.

If you own a pair of Native Shoes, you're definitely familiar with how easy to clean and odor-resistant they are. But it doesn't stop there. Now, you can add your personal touch, too. Exclusively at Pacific Place Mall, you'll get free beads and shoe charms with every pair of Native Shoes you purchase!

Let's take a step towards a more sustainable and environmentally-friendly future with **Native Shoes on Level 1.**

Bring the Popcorn

Back from your well-deserved break, it's time to go back to routine. To unwind after a whole day of work, you can kick back, grab yourself a bucket of popcorn, and enjoy the latest movies. PP has compiled three interesting must watch films:

TRINIL

Many Indonesian horror movies are released every year. However, Trinil is a noteworthy one directed by the celebrated Hanung Bramantyo. Starring the mother-daughter duo, Wulan Guritno and Shaloom Razade, Trinil tells a story about newlyweds who were haunted by a headless ghost. The movie is based on a popular radio back in the 1980s.

MEAN GIRLS

PP can't believe it's been 20 years since Lindsay Lohan's Mean Girls! Still keeping Tina Fey as the screenwriter, this remade Mean Girls has all the original characters like Cady Heron and Regina George, but with updated modern day drama. For a full Mean Girls experience, PP advises you to go watch the movie on Wednesday. Don't forget to wear pink!

THE BEEKEEPER

When you see Jason Statham as a lead actor in a movie, it's guaranteed to be jam-packed with action. The Beekeeper opens with Jason Statham as a literal beekeeper, until it was revealed that he was a "Beekeeper". Watch him going on a mission to take vengeance for his dearest neighbor who fell into a phishing scam. The plot will have you sitting on the edge of your seat.

Whether you're watching with friends and family or going on a movie date, these three options will transport you to another world for a while.

THE EVERYDAY *Adventurer*

Conquering one task after another in the concrete jungle of Jakarta is a grand adventure on its own. In the wilderness of the big city, you need the right gears to survive. **Urban Traveller & Co.** has all the equipments to help you. First established in the Philippines, **Urban Traveller & Co.** finally arrived at **Pacific Place Mall, Level 2.**

Some brands PP finds interesting and of course, highly useful include **Secrid, Black Ember, Rains, XD Design, and Orbitkey**, among many others available at **Urban Traveller & Co.** Secrid is a clutter-free Compactwallet, with products ranging from slim card protector to roomier Twinwallet. Quickly access specific credit card or ID and no more spreading your pile of cards when paying at the cashier, thanks to Secrid.

Meanwhile, **Black Ember** is a sleek, weatherproof backpack designed to protect your stuffs and gadgets. Perfect for daily commuting and hopping from one meeting venue to another. For other durable backpack option, PP suggests you check out **Rains**. The

versatile design and neutral color selections go well with any kind of outfits. If you frequent areas that are more prone to thefts, **XD Design** has its signature Bobby anti-theft backpack to protect your gadgets and belongings from pickpockets. The backpack comes with features like hidden zippers, cut-resistant fabric, and shock-proof compartments.

Jangling keys can be annoying. Especially if those keys scratch the interior lining and other things in your bag. **Orbitkey** is the only key organizers you need to turn your keys into a silent stack. What a great innovation! PP is especially into their many color selections.

To make yourself a well-gearred urban adventurer slash traveler, go get your things at **Urban Traveller & Co., Level 2.**
